## Kimberly Bergalis Park in Fort Pierce Closes For Improvements

The City of Fort Pierce's beachside Kimberly Bergalis Park will close for approximately 90 days beginning Monday, January 25, 2010. Park improvements include a new restroom, four (4) picnic shelters and one large family pavilion. Construction materials used in the project are adapted for extreme wind loads and harsh climate conditions affording longer wear characteristics and less maintenance.

Bergalis Park is one of three other beach parks to receive improvements over the past year. The South Beach Parks Project totaled approximately \$3 million and was funded by the Fort Pierce Redevelopment Agency (FPRA).
