## City of Fort Pierce Building Department Unveils New On Line Permitting Services

Do you need to check on your recently submitted City building permit and it is 10:00 p.m.? You don't have to wait until the morning, just log on to your computer to the City's website and find out what you need to know about your permit, 24 hours a day.

The City of Fort Pierce Building Department now offers a new web based application, Click2Gov, that will help streamline the permitting process. Click2Gov affords the public an opportunity to schedule building inspections, obtain permit status information, read plan review comments and make payments on your computer. The web based program is on the City's Main Website page and under the Building Department's web page at <http://www.cityoffortpierce.com/Building%20Dept/index.html>
