*News Release #26-12*

## City of Fort Pierce Reschedules Neighborhood Forum on 7<sup>th</sup> Street Reconstruction

The Fort Pierce Engineering Department rescheduled the neighborhood forum on August 22, 2012, to August 29, 6:30 p.m. at the Garden Club Center, 911 Parkway Drive to discuss the proposed special assessment for property owners along 7<sup>th</sup> Street from Parkway Avenue to S. 10<sup>th</sup> Street. The city project and assessment is contingent on a majority of the property owners in the area consenting to the municipal improvements.

The project, if approved, would provide total roadway reconstruction, storm drain and sanitary sewer system improvements at a cost based on the roadway frontage of their property at \$125/ft. The meeting is open to the public.
