 2. Attending class in Ft. Lauderdale for Level III certification (Legal Issues of Code Enforcement).
 3. Attended Leadership and Strategic Planning interview and seminar.
 4. Updating Naviline System to close inactive / old case files (on-going).
 5. Updating Naviline System to correct errors that occurred when cases transferred from the old system to the new system (on-going).

Engineering Department

- **A1A – Phase I** – Underground electric installation is underway. The general contractor is awaiting drainage structure delivery and expects to start construction second week in March.
- **Moore’s Creek** – Final inspection by FEMA has been completed. All reimbursement material submitted to FEMA. Evaluating proposal for aquatic weed control for section of creek from 15th to 7th Street. Engineering to bring proposal before City Commission at second meeting in March.
- **13th Street (Orange Ave to south of Ave D)** –AT&T is working on their utility relocations. H & J is preparing for final asphalt lift paving. Highway Safety Devices has completed pole and fixture installations and is proceeding with lighting system wiring.
- **Oleander Ave. / Sunrise Blvd. Sidewalk and Bike Paths** – FDOT is in the process of awarding the construction contract. Construction commencement is scheduled for June 2011.
- **29th Street (Orange Ave to Ave Q)** – FDOT will administer a design/build contract which will include milling and resurfacing, sidewalk construction and possibly curb and gutter installation. FDOT will be letting this design/build project under the same contract as the Oleander/Sunrise project.
- **Development Reviews** – Intake of four (4) Building Permits, Site Plans, and Certificate of Occupancy reviews.
- **10th Street and Pinecrest Subdivision** – A selection committee comprised of two (2) City and (3) County representatives ranked Culpepper & Terpening as the number one responding proposer. Negotiations with C&T are underway. Once a design contract price is agreed the County will award the contract. The CDBG funding for this project is \$1,983,716.00. The proposed work will include drainage upgrades to Pinecrest along with reconstruction of 10th Street from Citrus to Moore’s Creek. Final construction completion May 2012.
- **Frances Avenue Storm Drainage Replacement** – Staff has completed the design of the storm drainage retrofit project extending from Thumb Point to Fernandina.
- **Atlantic Avenue Storm Drainage Replacement** – Preparation of design plans for the retrofit of the existing decrepit storm drainage system along Atlantic Avenue from 5th Street to 7th Street.
- **Avenue “F” and 6th Street Drainage Improvements** – Staff is currently designing a storm drainage treatment/conveyance system to service stormwater run-off that collects along the west side of 6th Street at Avenue “F”. This area currently has a substandard system that will be upgraded to an exfiltration system with a positive connection.
- **Stormwater Division** – Preparing response to FDEP’s requirements for MS4 permit renewal. Held interviews for Stormwater Engineer position. Offer made to candidate. Preparing annual invoices for stormwater fees to governmental and non-profit property owners.
- **Traffic Control** – Continued monitoring and coordination of the City’s traffic control system. We are working with FDOT to establish our 2011-2014 Work Program JPA for the computerized traffic control system. Engineering held a kickoff meeting for the US1 signal retiming project with McMahon and Associates to discuss format and deliverables required under the contract.
- **Jetty Park Reconstruction** – Meeting held with FDOT to review requirements for LAP (Local Agency Participation) agreement. FDOT requires additional information regarding the acquisition of property for the Jetty Park expansion. All acquisition has to meet federal guidelines. Staff is currently working with the City Attorney’s office and the City’s Urban Development office in hopes of providing FDOT with the requested information. Once this information is received and FDOT has had an opportunity to review the data a meeting will be scheduled.

Public Works Department

- **Inlet Linear / Jetty Park Parking** – The City Manager, City Engineer, Chief of Police, and Director of Public Works are collaborating for additional stabilized parking within the boundaries of the FPRA owned property just west of South Jetty Park. The City Engineer has completed the designed layout of the stabilized parking area, which will provide 38 additional parking spaces. The Chief of Police has acquired the adjacent property owners consent to construct prohibition devices to prevent vehicles from accessing their privately owned property. PWD crews have initiated the work and anticipate the completion of this task within 15 calendar days.
- **Downtown Striping** – PWD crews are progressively refreshing the pavement markings within the entire downtown area. Due to the extent of the work contractual assistance will also be utilized. This area is bounded by the north by Seaway Drive, south by Citrus Avenue, west by U.S. Highway 1, and east by the Indian River. This task is scheduled to be complete within 30 calendar days.
- **SR A1A Roundabout Lighting** – Underground electrical conduit will be installed at this location that will facilitate the spot lighting similar to the Avenue D Roundabout. The overhead lighting entering the roundabout area provides significantly less illumination than the street lighting in other sections of SR A1A. FPUA crews have been inspecting the existing lighting and have determined that several of the fixtures were installed incorrectly. The manufacturing company and the general contractor have been notified about this situation. Replacement material has been ordered and will be installed by FPUA personnel. Upon the completion of this task an assessment will be performed to determine the need for intensified over head lighting.
- **Solid Waste Disposal Options** – The Public Works Department received direction from the City Manager and City Commission to continue negotiations with Saint Lucie County and Waste Management in order to generate additional revenues and reduce expenditures. Both Saint Lucie County and Waste Management have provided revised proposed that offer additional revenues to the City of Fort Pierce.

Police Department

- **Operation Ceasefire** – On February 16, 2011, the police department announced the arrest of five 13th Street Gang Member on charges of Racketeering and Conspiracy to commit racketeering, charges which carry a 30-60 year prison term. These arrests followed a two year investigation conducted as a part of Operation Ceasefire. The investigation is ongoing and many more arrests are expected. Chief Baldwin has also begun meeting with suspected gang leaders and issued warnings that they will also be prosecuted under the RICO statutes if the violence does not stop. Additionally, on February 9, 2011, Chief Baldwin met with Chief Assistant State Attorney Thomas Bakkedahl to begin the process of obtaining civil injunctions against gang members that would prohibit them from visiting gang areas or associating other members. This effort is on-going.

Urban Redevelopment

- Staff hosted visit from Federal Transit Administrator Peter Rogoff to new Intermodal Transit Station.
- Held preliminary meeting re: fishing pier on Melody Lane with Chief Baldwin and members of Planning and Engineering staff, grant writer.
- Continued a series of planning exercises and meetings re: development of Eco-tourism, drafted support Resolution for City Commission.
- Researched legal issues re: CDBG waiting list and held public discussion at City Commission meeting re: issue.
- Staff attended "Hardest Hit" program training, draft contract presentation for City Commission, review issues with staff.
- Met with contractor, TCRPC rep re: King Plant cleanup and Davis Bacon regulations.
- Respond to CDBG grant complaint from FP Football representative.
- Review Brownfield issues and policies, discuss 1501 Ave. D with FDEP reps.
