

THE SUNRISE CITY

FORT PIERCE
BUILDING DEPARTMENT
Florida

Notice to All State Certified Contractors

As you may be aware, the State of Florida has enacted a law prohibiting local enforcement agencies from **requiring** the payment of a fee associated with providing proof of licensure, recording, filing a license, and providing evidence of Workers' Compensation insurance.

In compliance with the law, the City **does not require a State Certified Contractor to pay fees** for filing a license, to provide your State license, liability insurance, Workers Compensation insurance and/or exemption, and a copy of your Business Tax Receipt at the time of permit application. The qualifier may apply for a permit at any time with the required documents without having to pay a required fee.

As a convenience, upon request, the City will maintain copies of all required documents on file so that the qualifier may avoid the need to appear in person each time at the time of permit application. There is a service user/document storage fee of \$25.00 per year that will be charged in the event that you elect to request that the City store your records for your convenience.

Respectfully,

Paul Thomas, CBO, CFM
Building Official
